Read the "Situation Wanted" columns, Mr. Business Man.

This column is the ladder of the discontented ones—for discontent nine times in ten spells ambition.

Just the young man your business needs may be appealing to you today.

Take a chance on the "ambitious employed."

We may live without conscience and live without heart;
We may live without poetry, music and art;
We may live without friends, we may live without fads,
But business today cannot live without ads.

Their Care and Cultivation

Baby Wreath and Pinks.

PLANTS FOR SHADY WINDOWS

By EBEN REXFORD.

It often happens that the woman who loves plants has no sunny windows in which to grow them, and under the impression that they cannot be successfully grown without sunshine, she does not attempt their cultivation, thus depriving herself of a great deal of pleasure, especially in the winter.

There is no good reason why the lover of plants should be without their company in the winter, provided, of course, that the temperature of the rooms can be regulated to keep out the frost, and some of the plants that can be grown in the windows that are without sunshine are among our most desirable ones for house culture.

First on the list I would place the Boston fern. Nearly everyone is familiar with this plant. It requires only the ordinary attention.

Give it a soil of garden loam, with enough coarse, sharp sand worked into it to make it friable, a liberal, but not an excessive amount of water and a temperature varying several degrees above the frost point, and anyone may be reasonably sure of success with it.

It does not do very well, however, in steam-heated, gas-lighted rooms. No plants will flourish under such conditions, though many will live on indefinitely under them.

The Aspidistra is about the only plant I would dare to recommend to those living in rooms heated and lighted as mentioned above.

This plant has an almost iron constitution, which enables it to withstand influences that would soon kill most plants.

It seems to care nothing for the sunshine, and therefore is excellently adapted to cultivation in sunless rooms.

If not subject to the debilitating effect of steam heat, it will make a most luxuriant growth, and its rich, dark leaves will afford a vast amount of pleasure.

While it is able to withstand unfavorable conditions better than other plants, it is always grateful for good care, and the plants that are cared for well are always the ones that give the best satisfaction, keep in mind.

English ivy is an old favorite. Twined up about a window, it is a beautiful sight to see. I know of no vine having more attractive foliage.

Its dark, rich leaves have just the thick, leathery texture a plant should have to resist the effect of dry air and dust. Dust need never be allowed to accumulate on it, however.

Dust the vine every day. You need not be afraid of injuring the foliage. Some of the finest specimens of it I have ever seen have never had a glimpse of sunshine. Give it a soil of garden loam.

Have its pot well drained; water moderately. Be on the lookout for

scale. If any are found—generally along the stalks, but sometimes on the leaves—wash the entire plant with soapy water, taking care to rub the infested stalks well.

In order to make it easy to take the plant down for cleaning, I would advise putting small screw-hooks in the window frame to furnish support for it, rather than fastening them securely to the woodwork. Simply slip the vine over the hook and it will need no other support. When it is necessary to take the plant down for any purpose, all one has to do is lift it out of the hooks that hold it—and there you are.

The Whitman fern is a fitting companion for the Boston fern, of which it is a sport. This variety has much shorter fronds than the Boston fern. They are much wider, however, and their leaflets are subdivided in such a manner that each becomes a miniature frond. The effect is light and feathery and exceedingly graceful.

This is a most excellent plant for a place at the sill, while the Boston variety is more effective if given a bracket half way up the window, from which point of vantage its long fronds can droop in such manner as to display their charms most effectively.

All plant lovers have a desire to grow some member of the Adiantum branch of the fern family in the living room. Few have succeeded in doing this, however, because of the delicacy of the ordinary varieties. But we have one now that will adapt itself ordinarily to the cultivation which prevails in the usual home.

This is *Crowcanum*. I have given it a year's trial and it has proved satisfactory—as satisfactory as the old Boston fern. It is stronger, sturdier in habit than any other Adiantum I have ever seen and its foliage is thicker and firmer.

It grows to a height of about eighteen inches and has a corresponding spread of branches. Its foliage has all the grace that characterizes this division of the great fern family, and a well-grown specimen is a thing to be proud of.

Give it a soil of loam, turfy matter or leaf mold and sand, equal parts. Let its drainage be good; water well and cover with something when you dust the room.

All the plants mentioned above are non-flowering. Or, more strictly speaking, they are grown for their foliage only. Whatever flowers they have are so insignificant as to be unnoticeable. But there are flowering plants quite well adapted to culture in sunless windows.

One of these is *Primula obconica*. Another is *Primula Forbesii*. *Primula obconica* has much longer flowers than the other variety and is therefore more showy, but *Primula Forbesii* is a most charming little thing that will win its way to the heart of every person who loves flowers.

A Fine Bit of Lawn, Also Showing a Fine Planting of Shade Trees.

CALOMEL IS MERCURY, IT SICKENS!
STOP USING SALIVATING DRUG

Don't Lose a Day's Work! If Your Liver Is Sluggish or Bowels Constipated Take "Dodson's Liver Tone."—It's Fine!

You're bilious! Your liver is sluggish! You feel lazy, dizzy and all knocked out. Your head is dull, your tongue is coated; breath bad; stomach sour and bowels constipated. But don't take salivating calomel. It makes you sick, you may lose a day's work.

Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel crashes into your bile like dynamite, breaking it up. That's when you feel that awful nausea and cramping.

If you want to enjoy the nicest, gentlest liver and bowel cleansing you ever experienced just take a spoonful of harmless Dodson's Liver Tone. Your druggist or dealer sells you a 50-cent bottle of Dodson's Liver Tone under my personal money-back guarantee that each spoonful will clean your

sluggish liver better than a dose of nasty calomel and that it won't make you sick.

Dodson's Liver Tone is real liver medicine. You'll know it next morning because you will wake up feeling fine, your liver will be working, your headache and dizziness gone, your stomach will be sweet and your bowels regular. You will feel like working; you'll be cheerful; full of vigor and ambition.

Dodson's Liver Tone is entirely vegetable, therefore harmless and cannot salivate. Give it to your children! Millions of people are using Dodson's Liver Tone instead of dangerous calomel now. Your druggist will tell you that the sale of calomel is almost stopped entirely here.

HORSES FOR EUROPE

Europe is buying thousands of horses from the United States for the war. The army agents refuse all horses that are not in good condition and free from contagious and infectious diseases. When the buyers come you must be ready to sell. Keep your horses in salubrious condition, prevent and cure Distemper, Pink Eye, Spunk, Coughs and Shipping Fever by using the largest selling veterinary remedy.

SPÖHN'S DISTEMPER COMPOUND.
Absolutely safe for all ages. One bottle cures a case. 50 cents and \$1 the bottle, \$5 and \$10 the dozen. Write for free booklet, "Distemper, Coughs and Cures." SPÖHN MEDICAL COMPANY, Chemists and Bacteriologists, CUSHEN, INDIANA

An entertaining woman is one who permits a man to talk about himself.

Red Cross Ball Blue, made in America, therefore the best, delights the housewife. All good grocers. Adv.

If we were to refrain from talking about our neighbors, fewer of us would be afflicted with talkitis.

Quite Fitting.
"I am going to have an old beau as the hero of this story."
"What a dandy idea!"

Same Thing.
"He's a duck of a boy."
"Yes, he's game."—Baltimore American.

A Vigorous Writer.
"Why does your mayor put on automobile goggles before he writes?"
"To keep the ink from spluttering in his eyes."—Munich Megendorfer Blaetter.

His Guess.
Flatbush—Did you ever hear a young owl cry at night?
Bensonhurst—Oh, yes.
"What do you suppose makes it cry so long?"
"Perhaps it's father is walking the floor with it."

Everybody Satisfied.
"I see where another baseball player has been fined for having a row with an umpire."
"Do you sympathize with him?"
"Not at all. My observation is that the average player who is fined for assaulting an umpire feels that he got his money's worth."

How It Happened.
"I can't do a fool thing with that dern camel," growled Noah, as he came into the cabin for supper.
"What is the matter with him?" asked Mrs. Noah.

"Why, he didn't like the quarters I gave him, and he got his back up about it, and he can't get it down again," replied Noah.

CLEAR-HEADED.
Head Bookkeeper Must Be Reliable

The chief bookkeeper in a large business house in one of our great Western cities speaks of the harm coffee and tea did for him:

"My wife and I drank our first cup of Postum a little over two years ago, and we have used it ever since, to the entire exclusion of tea and coffee. It happened in this way:

"I had an attack of pneumonia, which left me with dyspepsia, or neuralgia of the stomach. My 'cup of cheer' had always been coffee or tea, but I became convinced, after a time, that they aggravated my stomach trouble. I happened to mention the matter to my grocer one day and he suggested that I give Postum a trial.

"Next day it came, and we liked it so much that we will never change back; for I am a well man today and have used no medicine.

"My work as chief bookkeeper in our Co's branch house here is of a very confining nature. During my coffee drinking days I was subject to nervousness and the 'blues' in addition to my sick spells. These have left me since I began using Postum and I can conscientiously recommend it to those whose work confines them to long hours of severe mental exertion."

Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkgs.

Postum comes in two forms: Postum Cereal—the original form—must be well boiled. 15c and 25c packages.

Instant Postum—a soluble powder—dissolves quickly in a cup of hot water, and, with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.

Both kinds are equally delicious and cost about the same per cup.

"There's a Reason" for Postum.

—sold by Grocers.

Strictly Up to Date.
"How old is your baby brother, little girl?"
"He's a this year's model."

Doctors say that worry kills more people than work—probably because more people worry than work.

Paxtine

A Soluble Antiseptic Powder to be dissolved in water as needed For Douches

In the local treatment of woman's ill, such as leucorrhoea and inflammation, hot douches of Paxtine are very efficacious. No woman who has ever used medicated douches will fail to appreciate the clean and healthy condition Paxtine produces and the prompt relief from soreness and discomfort which follows its use. This is because Paxtine possesses superior cleansing, disinfecting and healing properties.

For ten years the Lydia E. Pinkham Medicine Co. has recommended Paxtine in their private correspondence with women, which proves its superiority. Women who have been relieved say it is "worth its weight in gold." At druggists, 50c large box or by mail. Sample free. The Paxton Toilet Co., Boston, Mass.
